The Graduate School of Agriculture and Life Sciences of Toulouse welcomes exchange students for one or two semesters.

Be part of an international learning community worldwide!
The ENSAT, a French Engineering School member of the INP Toulouse, is a top-ranked higher public academic institution referred to as a "Grande École Française". The ENSAT is devoted to academics and research in the fields of Agricultural, Life and Environmental Sciences. Students are enrolled after two years undergraduate studies. Students have close contact with professionals of the French agricultural sectors and are trained on the basis of project building, critical analysis and integration of research methodologies. The ENSAT collaborates with several institutions world-wide through more than 70 student exchange agreements. In an exchange program, the ENSAT credits are transferred to the partner Universities.

Key figures
860 students
510 engineer students
110 PhD students
150 international students
70 academic staff
380 partnerships with companies

6 double degree agreements
ACADEMICS AT THE ENSAT

Engineer’s programs

A master’s level degree in various specialised domains in agriculture, environment and food science

- Plant Biosciences – Biotechnology, Plant breeding, Plant protection
- Agrogeomatics – Remote sensing, Geographic Information Systems
- Agro-Management – Project management, Agri-business
- Food Industry – Innovation and Product quality
- Livestock farming systems
- Environmental Engineering – water and waste management treatments
- Environmental quality and resource management – risk management, management of agricultural impacts
- Computational biology for Biotechnologies
- Agro ecology, environment, territories – sustainable development and land use
- Sustainable development engineering

Master’s programmes

- Agrofood Chain Master
  - Full held in English
- Ecosystems and Anthropisation
- Adaptation, Development, Crop improvement and Microorganisms
- Bioengineering for Food and Health
- Agrogeomatics

The National Diploma in Oenology

French level required: minimum B1 level, but B2 recommended. English is mandatory.

Semester 5-6-7
Common core curriculum

Sem. 8
Optional track in
- Agronomy
- Animal sciences
- Biosciences
- Environment
- Food sciences
- Management

Sem. 9
Specialization

Sem. 10
6-months internship

More info
www.inp-toulouse.fr
ENTRY REQUIREMENTS

- Be a student in one of our partner universities
- Have at least a Bachelor’s degree or the equivalent of a 3-year university degrees
- Have the pre-requisite academic background

French-speaking students may enroll as exchange students in Engineering programs, Master programmes or in the National Diploma in Oenology preferably semesters 8 or 9.

Non-French speaking students may enroll in the Agrofood Chain Master, fully held in English.

Application procedure

1. Nomination by your home University
2. Pre-registration at the ENSAT

DEADLINES
November 1st for spring Semester (S8)
June 15th for Fall Semester (S9)

More details on our website: www.ensat.fr/en

French Summer School

Students selected to study at INP-ENSAT during the Fall, are advised to follow an intensive 3-week course in French starting mid august or a 2-week course in mid january, for those enrolling in the spring semester. These courses also include a wide variety of cultural and historical activities. Students will have buddies to help them settle in Toulouse.

Research

Choose one of our research laboratories for an internship (5 or 6 months).

AGIR: Agroecology, Innovations and Ruralities
DYNAFOR: Dynamics and ecology of agri-forested landscapes
ECOLAB: Functional Ecology and Environment
GBF: Genomics and Fruit Biotechnology
GenPhySE : Genetic, Physiology and Breeding Systems
LGC-BIOSYM : Microbial Systems and Processes
Student life

**Toulouse, a very pleasant place to live and study**

Toulouse is famous for its quality of student life in France, and is considered as one the finest metropolitan areas to live in Southern Europe.

Located between the Pyrenees, the Atlantic Ocean and the Mediterranean Sea, Toulouse is the capital city of the vast Occitanie region and the 4th biggest city in France. Not far from ski slopes and sea, the city offers a wide range of activities such as sports, arts, culture and is also appreciated for its bubbly night life and sunny terrace restaurants.

**Day-to-day life**

**Accommodation**

There are some rooms available in University Halls of Residences managed by the CROUS.

Other possibilities of accommodation can be found in private students’ residences near the ENSAT or downtown (studios or shared apartments).

**Student associations:**

«Work hard and play hard !»

Our students run different clubs each year, a central part of student life. International students are welcome to share their talents in sports, arts, music, dance, theatre and many more activities. Many events are organized every year by the students’ Office (Agro runs, ‘Imprò’citaries etc.). Our students’ Welcome team will make you feel at home.

**The Welcome Desk:**

offered by the Federal University of Toulouse will help you in major administrative procedures upon your arrival.
